Music Workshop Information—**Please Post**

OCC-AOSA is a chapter of the National American Orff-Schulwerk Association. We are a non-profit, professional organization of music and movement educators dedicated to the creative teaching approach developed by German composer and educator, Carl Orff. We are joined by our belief that learning about music—learning to sing and play, to hear and understand, to move and create—should be a joyful experience. Every year this chapter sponsors a variety of quality music workshops taught by clinicians who are recognized for their expertise in this field. These workshops are open to anyone who works with people and music, such as pre-school teachers, classroom teachers, music specialists, choir directors, music therapists, college education professors and their students, and recreation teachers.
